Veterans Professional Services, LLC is a Service-Disabled Veteran Owned Small Business consisting of highly skilled professionals who specialize in the management, administration, engineering, construction management, operation and maintenance of client facilities. We deploy the talents of our staff either individually or in a team format at the client facility in support of a specific need or range of needs as they are defined by the client's scope of work.

Some examples include deployment of supplemental professional talent (i.e. project managers, architects, engineers, administrative support, contracts specialists, construction managers and project controls specialists) and operation and maintenance professionals to provide day-to-day care and oversight of building systems and to achieve the specified scope of work activities.

When you have a professional resource need, Veterans Professional Services will respond quickly and professionally. We have an extensive team of highly qualified support staff available to assist with your program requirements.
